Commander Nichols' Report From Alaska to the Navy Department-Ap. pointments, Etc.

WASHINGTON, May 2.- Lieutenant Commander Nichols, commending the Pints, writes to the Navy Department from Sicka, Alaska, under date of March 31, and says in part: "The Chilleots are somewhat uneasy and say they wilt have no more white men among them. There has been a great deal of hoochines among them this winter. They have threatened the white men, but have committed no avert act, and probably will not, though they have not the fear of war that some of the rest have, owing to the fact that their village is about seventy miles above the river bar and is only accessible by canoes. The Russian citizens of this place and the missionaries are having some trouble owing to the alleged encroachments of the missionaries on land claimed to be within the town limits. It has culminated in an injunction forbidding the missionaries to do furher work until the case can be decided at the May term of the District Court. At Hoonyah 1 heard of a case of witchcraft. During the winter a man and a woman were tied up and allowed to starve to death. The authors of it were apparently unknown."

\$363,354,668 21 PITTSBURG TRUNK MYSTERY.

Fort Wayne Baggagemen Unable to Purn. ish Any Reliable Clew.

CHICAGO, May 2 - The employes in the Pittsburg, Fort Wayne and Chicago Railway Baggageroom at the Union Depot can furnish no clew that promises to lead to the identification of the person or persons who shipped the trunk containing a dead body to Pittsburg. One of the baggagemen said: "We check so many trunks here every day that it would be simply impossible for us to remember anything concerning them or the person to whom they belong, unless there should be something unusual happen at the time to attract our attention. An ordinary man weighs from 130 to 150 pounds and his body could be packed in a trunk very easily. As we handle many trunks that contain baggage weighing from 150 to 200 pounds, we could not have our suspicions aroused because the trunk seemed heavy. Of course, if a fould odor was emitted from it, we would conclude that it contained a corpse, and would call the attention of the authorities to it. All I know about the trunk in question is that it left here at 3:15 o'clock yesterday afternoon on the regular passenger train, and was checked through to Pittsburg. It was an ordinary packing trunk. One of our men thinks it was brought here in an express wagon before noon by three Italians, and that it was the first trunk checked for the 3:15 train. This, however, is only a supposition upon

The detectives here are making a thorough Investigation of the mystery, but as yet have no information to Impart.

The Body Identified as Pietro Caruso, a Former Peanut Vender,

PITTSBURG, May 2.-There are no new developments in the trunk mystery which was developed body has been lying at Flannerie's undertakingroom, and during the morning a large number of Italians viewed the remains, but no one could identify them. The detectives here are endeavoring to follow a clew obtained this morning. A man answering the description of one of the parties who checked the trunk at Chicago was seen at Union Station 19st evening just before the trunk was opened, but he disappeared and has not yet been found. The body will be buried this evening.

This afternoon Mrs. Bonistalli, the wife of a Smithfield street Italian confectioner, identified the remains as those of her brother, Pietro Caruso, former peanut vender of this city, who went to Chicago several years ago. Although the corpse was very much bloated, and almost black, she is quite sure that it is ber brother. Antonio Sablino. who viewed the corpse a short time afterward, also recognized it as the body of Caruso. He said that he worked with deceased on a railroad near Chi-cago for a year. He was always regarded as a peaceable man and was never known to pick a quarrel with any one.

The Victim Burled.

PITTSBURG, Pa., May 2.-The remains of Carauso. the trunk victim, were buried this afternoon, in the Union Dale Cemetery. It is now believe I ne was chloroformed and placed in the trunk, and

The fact that vomit was discovered in the trunk and that his lungs were badly congested strengthens this theory. The detectives here have been unable to discover any clue that would lead to clearing up the mystery.

It is thought that the strikers will not be so foolhards as to make an attack or raiuse to disperse when commanded to."

Seventy Strikers Captured and Held as Prisoners.

JOLIET, Ill., May 2.-General Vance has just sent the following dispatch to the Governor: About half past 2 p. m two hundred and fifty strikers from Lemont approached Sanger and Nobes quarries, where two companies of Colonel Bennett's command was posted. Under direction of Colonel 8. W. Munn, Special Deputy Sheriff, Captain Jackson's Company was placed in ambush. Lieutenant St. Clair's Company commanded the road to Joliet. The strikers were halted by Deputy Sheriff Munn, and commanded to disperse and return to their homes unmolested, which they refused, brandishing their clubs. They cried, 'On to Joliet,' 'No man shall work.' The companies deployed, closing in on the flanks. Seventy strikers were captured with the assistance of the deputies, and marched as prisoners to Jolist. They are now held as prisoners by the Sheriff in Major Wood's Battery Armory. Captain Blanchard's Company and Captain

Madden's Company, two and a half miles south of Sanger quarry, were placed on a special train and run to Lockport. Under Colonel Bennett they deployed as skirmishers, covering nearly a mile front, and are now scouring the country between Lockbort and Sanger quarries for those who escaped. Killed and wounded none.

GENERAL GRANT.

He Passes the Worst Night in Two Weeks - Cerebral Excitation Said to be the Cause.

NEW YORK, May 2.-Last night was the worst night with General Grant in two we ks. It was a quiet night, as quiet goes with him, but he slept only at short intervals until 6 o'clock this morn. ing, at which time he fell into a sleep that con tinued until 8 o'clock. He then awoke again but

afterward dozed until between 9 and 10 o'clock. About 10 o'clock last eight the General settled down as was supposed, for the night. He believed Dr. Douglas a

true, and when at 11 o'clock the patient heard the Doctor's voice in the hall he summoned him to the sick room. The General seemed nervous and apprehensive, and requested the Doctor not to quit the house until morning; hence Dr. Douglas remained at the house until 8:30 this morning. When the Doctor left the house he said the General's restless night might have been owing to cerebral excitation resulting from work on his book during the past two days. The weather, too, may have contributed to the restlessness of the patient. The throat and general physical conditions were not such as to have caused weariness, and the Doctor found explanation of the fact in the reasons stated. The weekly consultation will

A Sourisford correspondent writes as follows: A band of Indians from Dakota passed through re-cently as they said for Moose Mountain. They were very insolent and threatened to raid some houses in this vicinity. Meeting, however, with some opposition from settlers, they continued their journey.

THE PROPERTY OF THE PROPERTY OF THE PARTY OF

It Can Cure

It is a fact that remedies almost without number, already contest the claim to cure all the ills that afflict suffering humanity. Thousands have found them poweriess to work a cure for them. No diseases have so baffled all attempts at permanent relief as have Rheumatism and Neural-

gia. A long succession of disappointments has made their agonized victims despair of the possibility of cure. For centuries they have been considered be-yond the power of medical skill to cure. And yet we say both can be cured, and that ATHLOPHOROS will do the business. The best proof that it can do it is that it has done it.

Rev. S. R. Dennen, D.D., pastor Third

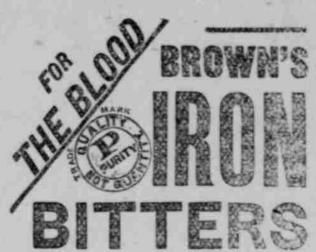

Congregational Church, New Haven, Conn. Rheu-matism had kept him from the pulpit four or five months at a time. He says he had suffered all that one could, and live. He took his first dose of ATH-LOPHOROS on Friday: Sunday he was in his pulpit; Monday he was well, and has remained so since. Rev. William P. Corbit, D.D., pastor George St. M. E. Church, New Haven, Conn., was laid up for two months with Inflammatory Rheumstism,

suffering most exercisiting torture. ATHLOPHOROS cured him, and he believes it to be infallible. H. S. Chandler, of the N. Y. "Independent," says ATRLOPHOROS cured him of Rheuma-tism from which he had suffered for a year and a half. Rev. W. B. Evans, Washington, D. C., says: "I consider its work almost in the light of a miracle. It is a most wonderful medicine. It ought to be spread throughout the land."

The great question is, Will it cure me? We believe it will. Is it worth trying? You must decide. If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed. ATHLOPHOROS CO., 112 WALL ST., NEW YORK.
